

2025 Idaho Operator Conference Call for Abstracts is open — due March 15, 2025

Call for Abstracts is Open

All abstracts must be submitted online to Jeremy.coles@rexburg.org by **March 15, 2025**.

Please join us for **The 42nd Annual Idaho Operator Conference**. The Annual Conference is scheduled for **May 18-21 at the Blue Cross of Idaho Conference Center at the Mountain America Center in Idaho Falls, Idaho**

Our conference committee is interested in any abstracts that will educate and inspire all who work in our industry. We will have four areas of focus that will be spread throughout our “Technical Session” time. They are:

- **Wastewater Collection and Conveyance**
- **Wastewater Treatment**
- **Drinking Water**
- **Pre-treatment/Lab**

We also would like to encourage introductory level content that will allow participants, that are new to the industry, have opportunities to learn “the basics”.

There will also be opportunities to share 15-30 minute presentations in the vendor area. If you are getting a booth and are interested in doing a short presentation at your booth, please let us know.

Submission Guidelines

Please consider the following requests when submitting your abstracts for consideration:

- Limit abstracts to 300 words and be concise in the title (75-character title is the max)
- Include a brief resume of all *presenters* (not all authors).
- Use normal formatting. Do not use all caps, etc.
- Notification of selections and expected conference format (e.g., in-person, virtual, etc) will occur in **mid-April 2025**
- Selected speakers are required to develop the abstract into 40-minute presentations and expect 10 minutes of Q&A. Format may vary dependent on conference format.
- **Presenters are expected to register for the conference and pay all applicable registration and preparation fees.**

We look forward to receiving and considering your abstract. If you have any questions, please contact Jeremy Coles at Jeremy.coles@rexburg.org.
